Fuselage Bottom

The diagram shows a cross-section of a fuselage bottom. It features two horizontal red lines representing a dimension. A green double-headed vertical arrow is positioned between these lines. The text 'Fuselage Bottom' is written in green. Below the text is a small black rectangle. The entire section is bounded by a black line profile on the top and bottom, with a horizontal line separating it from the section below.

FS6A

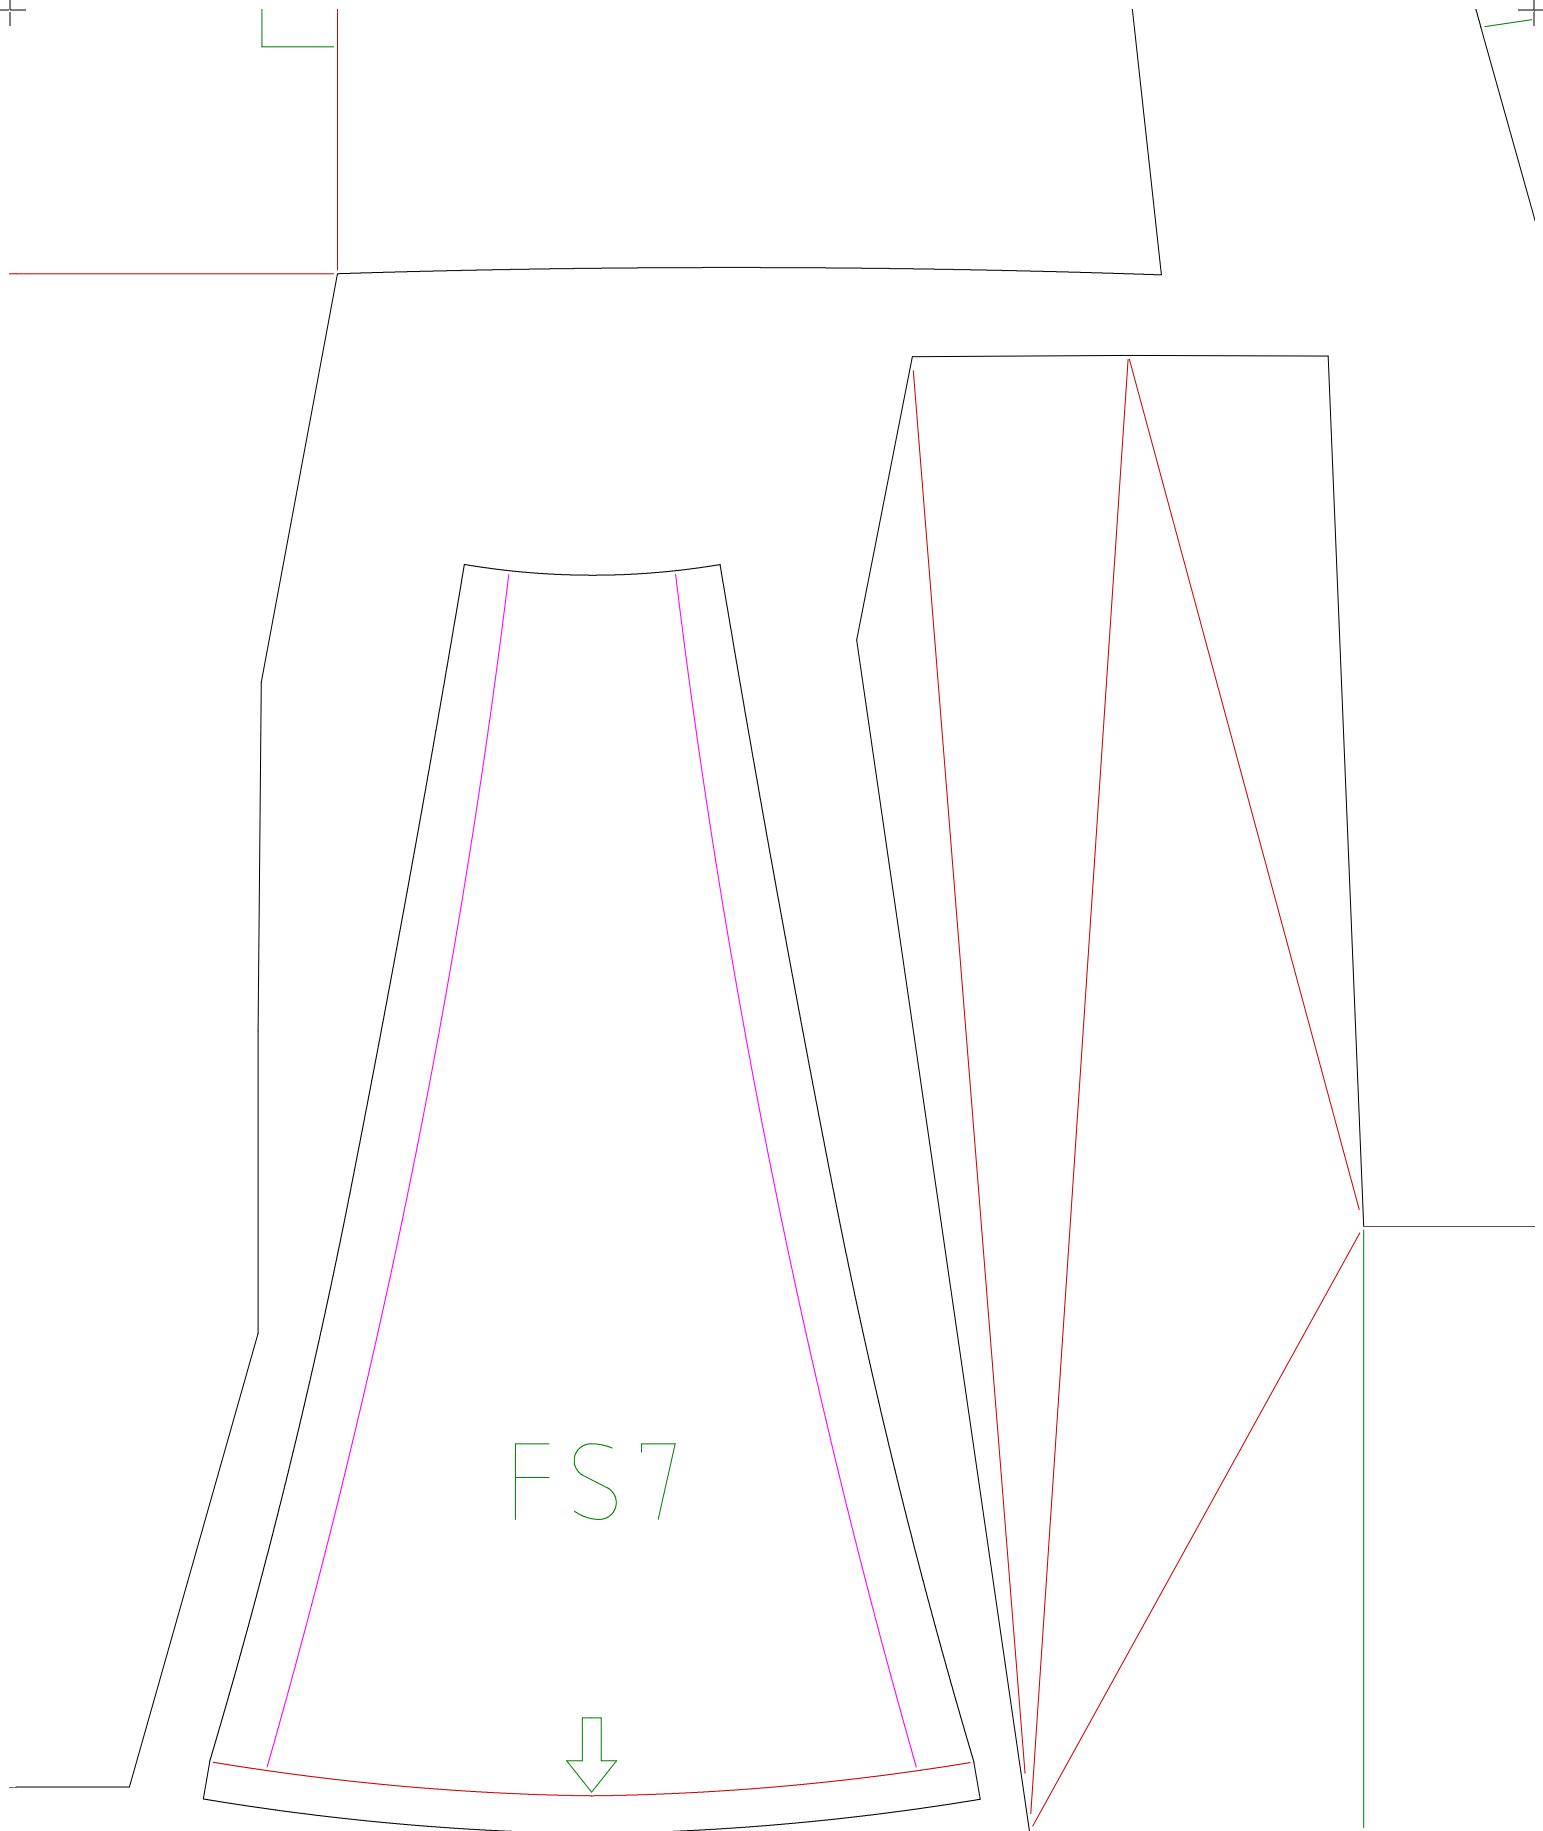

The text 'FS6A' is written in green. Below it is a large triangular area defined by a black line on the right and two green lines on the left and bottom. The green lines converge towards the top right corner of the diagram.
